certifications

HOME srl
Italy

In partnership with:

With financial support
from the EU

Introduction:

<p>HOME srl</p> <p>Via III Settembre, 2 31030 Cison di Valmarino TV - ITALY</p>	  
--	---

Company's Description:

Founded in 1988, the company produces kitchen furniture for domestic use: Classic, Modern and Luxury kitchens. The company in 1993 moved its head office from Revine Lago to Cison di Valmarino (12,000 sq m). Then it started a continuous growing in size (in 2003, 19,000 square meters, in 2010, 30,000) that brought Home to be recognised as at the 20th place in the national rankings of Italian kitchens manufacturers companies (out of 600 total).

Sub-sectors affected:

X Furniture (2nd Transformation)

Costs	€
(and/or investment, return on investment, employment indicator...):	46 employees

Implementation Process:

In order to offer customers innovative services, the company heads for continuous improvement of internal expertise. It gives great prominence to the interests of all stakeholders, particularly the employees, and to environmental protection.

Initiated practices:

The company heads for safety, functionality, quality/price ratio. Our declared values of inspiration for the company mission is the reliability of the product (security and functionality), the high quality/ price ratio, the continuous customer satisfaction, the improvement of internal expertise, the innovative services available to customers, the attention to all stakeholders and last but not least the total respect of the Environment.

Results:

We have been awarded with the following: Confindustria Awards for Excellence - Torino 2006 - Excellence Award and Italian Quality Award (PQI - Premio Qualità Italia).

Recommendations:

Total dedication to quality and environmental certifications and standards. Pay attention to all stakeholders.

Conclusions:

The company has been certified by the following: Certified Quality System ISO 9001:2008 and Certified Environmental Management System UNI EN ISO 14001:2004. Once Home S.r.l., obtained the ISO 9001 :2000, had decided to go further, embracing the principles of Total Quality (also known by the acronym TQM-Total Quality Management).
